

## WORLD PANCREATIC CANCER DAY 2020 Campaign Planning Guide

### WHAT IS WORLD PANCREATIC CANCER DAY?

World Pancreatic Cancer Day is a global day of awareness for the world's toughest cancer. This November 19th, **it's about time**.

- **It's about time** you got to know your pancreas better. For you and for your loved ones.
- **It's about time** you learned the risks and symptoms of pancreatic cancer — there is no early detection test, so pay attention to your body. Every moment matters.
- **It's about time** you talked to your family and friends about this disease.
- **It's about time** you raised your voice to advocate for more attention, more patient support and more research.

On World Pancreatic Cancer Day 2020, let's all work together to make time. To make a difference. The [World Pancreatic Cancer Coalition](#), consisting of more than 90 organizations from 35 countries and six continents, is here to help. We are elevating global awareness, inspiring action, bringing greater attention, advocacy, and better outcomes to this deadly disease.
